

VSolvit Hosting CMMi V1.3 for Development Training

What: VSolvit will be hosting training for CMMI V1.3 for Development. Training will be conducted by QAI. The course will benefit product developers, process implementer and anyone interested in learning more about the CMMI. There are no prerequisites for this course other than a general understanding of systems or software engineering. This three-day CMMI Institute course provides attendees with a detailed overview of the Capability Maturity Model Integration for Development (CMMI-DEV). This course fulfills a prerequisite requirement for many courses requiring an official Introductory CMMI course (e.g., Intermediate Concepts of CMMI, SCAMPI Lead Appraiser Training, and Understanding CMMI High Maturity Practices). This course also fulfills a prerequisite if you want to be a member of a CMMI-DEV SCAMPI appraisal team.

Regular price is \$1395. If registering through VSolvit, the **price is 10% off at \$1,255.50**. The course will be held over 3 days, from 9AM - 5PM from Sept. 17-19. In addition, a Supplemental class for Services is being offered on Sept. 20th for \$455, which is 10% off of the regular price.

If interested in the initial course or the initial class as well as the supplemental course, please RSVP using the following link:

<https://goo.gl/forms/swcrkefUC6RgdyHE2>
